

Heart Art

What and who do I love? What are my influences? What makes me happy? What would I love to be when I'm older? What are the many special qualities about me?

Cut out the shape (above left). This is your template. Now draw this many times onto your favourite coloured paper(s). Cut these out and fold along the dotted line. You now have your 'hearts'. Think about what you put in them. You can draw, write, doodle, it's up to you. You could ask yourself questions like: what do I love doing, what do I want to become, who and what do I love and what are the many special things about me?

You've made and decorated your hearts; written special things inside them. Now it's time to turn them into art!

Roll your string/rope out and place the hearts along the rope. Glue them onto the rope (back-to-back) using your pritt stick.

Now you need to decide where to display what you've made. Hang them above your bed, in your window or somewhere else. You choose...

Enjoy and keep making!
