

# Magical Footsteps

## Magical Footsteps

Use the paper in your bag make a path of stepping stepping stones across the floor.

Close your eyes, count to three open them again.

The path is now MAGIC

Where does the path lead to?

What adventures might you have along the way?

What activities might you do when you get there?

Could you pack the bag with things you might need for your journey?

Have fun creating magical journeys by following your stepping stone footsteps.
